

Stutthof 05 01 1998

May man keep a watchful eye
that these crimes against humanity
will never reoccur again.

These crimes, the worst in the history of mankind, are being revived in their beginnings by the CIA, BND, FSB (KGB), the Leaders of the Governments of the US and Russia, Germany, Great Britain, France, India (at least until recently), Vietnam, the President of South Africa, the King of Saudi Arabia, the Jewish people, the leaders of the US Military, some within NATO, the Chief Justice of the US Supreme Court, most of US and German Industry and about all the major parties and security agencies, who claim to clean up these crimes.

They operate labor camps of sadism and sodomy, mass drugging hundreds of thousands of people a year.

They operate CIA gas chambers, spraying tens of thousands of people a year with concentrated nerve gas and industrial toxic gases.

They operate labor camps of deception and perfidy, recording in excess of ten billions of videos, conversations and brain wave patterns a day.

Not one person in the world has conducted a public information campaign about the tools of clandestine high tech terror and their multiple, uncontrolled dangers of the extinction of mankind.

Not one person in the world has insured individuals the legal right to defend themselves against illegal listening and video devices or high treason, murder and poisoning through drugging or nerve gas attacks as committed by these agencies.

Not one person in the world has followed his legal obligations, but violates statutes of crime by omission, most also consent to a crime, formation of a terrorist organization, incitement of the people, incitement to a crime and glorification of violence.

Not one person in the world has established public, medical evidence to determine the causality of the toxins affecting the central nervous system, the cardio-vascular and pulmonary systems, metabolism and the reproductive organs as employed by these agencies and to render adequate medical care.

About all the major parties and security agencies, who claim to clean up the crimes of the CIA, BND, etc..., evolving since forty years, escalated the investigation into these crimes into a dirty war of global dimensions against the personnel of these agencies, especially a nerve gas and poison pellet war against the BND on German soil. In a creeping, clandestine process of bestial subversion, having attached a stigma of state prostitution and gas chambers to entire nations, they have destroyed basic human standards and with it civilization worldwide in government, finance, economics, industry, the sciences and the arts as a breeding ground for crimes against mankind to shoot into gigantic proportions. To gain predominance in all tools of clandestine high tech terror, they finance an array of large scale research programs, in goal and method of human depravity. New drugs are being developed in the intent of specific dysfunction of individual system of the human body, applying advanced bio-technology, having created new, devastating dangers to human health.

Truth has been sodomized to death.

Truth is first of all human truth. The light to all human endeavors, it extends as far as man's mental horizon, his self-awareness, where he visualizes his thoughts and objects, in range from spiritual ambition to nature as it pertains to man. It expands as a new thought or discovery is added, fixes to a point in a description the characteristics at hand in comprehensiveness, the extent, the structure, the qualities, their relations and consequences. The thought is expressed in action or language. Truth, equal to congruence of a description with a thought or thing requires exactness and measures of reason. The characteristics are arrived at in method mainly through comparison.

The intentions and conceptions of man however are not only determined by a description of the thing at hand, but in freedom of thought also by ethical guidelines. Missing ethical considerations, man will not adhere to exactness and reason, but fall into corruption of truth, self-deception, gross injustices with self-destruction in excess.

An ethical sentence promotes a benefit. Though most often misused to gather manpower and advance giant cultural achievements, ethics touches on all social questions of man's mental horizon and establishes an independent, parallel standing mental sphere, all inter-human relationships with their consequences. Ethics grows out of reflection, outside the original environment, aloof in comparison and considers hypothetical courses of action in all straits aside from present facts. Taking up singular questions, it remains non-systematic, negatively expressed, its driving force being social pointed curiosity, as philosophy is the art to ask questions, its definition the question: are all aspects of the thought or thing at hand considered? In method it leads through example and advice, - where not welcome through fearless criticism.

The intentions and conceptions of man however are not only determined by a description of the thing at hand and ethical reflections, but also by transcendental questions of man before God. Lacking faith, conviction or Spirit of Man, the most insidious of criminal, spiritual corruptions, man abandons ethical considerations, exactness and reason to disfigure truth beyond recognition.

The integrity of truth is a figure of faith. Truth is the Body of Christ. The task for the spiritual leaders of our times is to raise general awareness in ethics, reason and Spirit of Man to preserve man as a being, balanced in spiritual, intellectual and emotional dimensions. It calls first to raise standards of truth, in each case a comprehensive analysis towards innocence. The spiritual demands of our times, setting up a bulwark against the multiple, disastrous consequences out of misapplications of modern day technologies, are:

- refrain from violence
- restriction to non-power methods
- restraint to the major issues of justice and peace

Their common question is: are the basic rights of individuals legally verified?

Truth is advanced in humility. Its task is to serve. Its thought or object wants first to help the poorest among the poor. The service is rendered selflessly without keeping an account by the speaker.

About all the people, who claim to clean up these crimes and pretend to eradicate them 100%, to hide their hypocrisy about the scum of depravity, will not allow anyone individual the legal right to defend himself against despotic perversion, as the BND extracts the odorous essence of human sperm to spray it concentrated out of depot poison pellets, set off and monitored electronically via satellite, on people's clothing.

Truth upholds a benefit. It aims to improve the condition or knowledge of the present state. It is useful. On the side of the speaker this requires a self-description of his intentions and background.

About all the people, who claim to clean up these crimes, at heart to preserve formal respectability, exercise stratagems of deception about themselves, their concern for humanity and basic liberties to hide their cynicism about mass murder, civil war, epidemics, famines, disparity of wealth, destruction of the environment, the death of millions of people.

Truth describes the thought or thing at hand with accuracy. Truth exists only in search of it. It exists only in public. It exists only in fearless promotion.

Truth speaks in the tongue of His word to speak His good news in His given order for man, to explain and to teach.

About all the people, who claim to clean up these crimes, while drawing information out of illegal listening and video devices, physically fornicate on the Bible at the breakfast table in front of their parents and children and at their agencies argue, how to sodomize all proponents of publication of these crimes, prosecution and the establishment of safeguards to death best, for example through inducement of tumors in the brain or the sexual organs.

Truth grants guidance in His light to imbue hope over darkness, fear of the Lord, forgiveness, justice, peace.

About all the people, who claim to clean up these crimes, draw information out of illegal listening and video devices within the body of their targets, their genital organs and digestive tracts down to the toilet bowl, to record physiological data and many agencies on millions of people a day brain wave patterns in the language controlling section to decipher their thoughts as an early warning system to resistance and to forestall an embarrassment.

Truth heals through the touch of His hand from blindness to reveal His kingdom and dignity of man as His holy image.

The sound eye disassociates itself from gross corruption in thought or thing within its mental horizon. Reflecting the landscape of His realm, it disclaims them with determination. It stands free, quietly. It develops a rational, adequate course of action to arrest disastrous consequences.

To cripple the spiritual, intellectual and physical strength of their political opponents, the leading atomic powers including Germany and Israel in face of admonition of Nazi extermination camps operate CIA gas chambers on the anniversary of the birthday of Adolf Hitler as a sign of their execution methods, gassing buildings, trains, cars, entire streets objects of daily use and public and private toilets.

Truth flows with His holy breath out of his love for life, especially the integrity of the individual, the community and the succession of generations.

About all the people, who claim to clean up these crimes, cursing Christ to be born out of fornication, tolerate in public silence CIA, BND, etc... mass drugging, contaminating with depot poison pellets the water and food supplies of millions of people, of entire regions for years, especially for Christmas time, and in the same grain sell their own children into state prostitution.

Truth reflects His holy name, having conquered sin in spiritual rebirth to love enemies over hate of other people and inversion of mind. It acts in generosity.

About all the people, who claim to clean up these crimes, holding up front illusions like human capability and convenience or scientific and social progress, acquiesce in public silence to the massive measurement of brain wave patterns of targets during sexual activity, intending to design CIA sodomy drugs according to individual profiles and to drug and delude them with as 'natural perceived' sodomy drugs.

About all the people, who claim to clean up the crimes of the CIA, BND, etc... breathe the truth about these crimes as odorous essence of human sperm through their brains and hearts.

Truth has been sodomized to death.

The extinction of mankind is inevitable.
